Dear Valued Sysco Customer,

As labor costs continue to rise, outfitting your foodservice operation with the right equipment is now more important than ever. Investing in new equipment models with time and cost-saving features can go a long way in increasing efficiency and decreasing expenses.

However, selecting the right equipment can be challenging. From sizing to fuel type to special options, it's easy to get overwhelmed. SuppliesOnTheFly.com makes it easy to get the right equipment for your foodservice operation's unique needs. We have a real team of equipment experts "behind the screen" waiting to assist you via phone, chat, or email, Monday through Friday from 9:00 a.m. to 5:00 p.m. This dedicated team of knowledgeable professionals has access to an expanded catalog of more than 250,000 products (many not available online). They can assist you with simple replacements, new installations, custom configurations, pricing, and more. Simply call them at (866) 779-8441, email products@suppliesonthefly.com, or click the Chat button on any equipment product page.

Please contact your Sysco representative or SuppliesOnTheFly.com for more information, ideas, and solutions to help your foodservice operation succeed.

Thank you for your business.

What Our Customers Say

“

Our ESC has been a huge help to our success as a growing brand! Time is of the utmost importance to restaurants managers & leaders. Sifting through huge catalogs of parts to find the correct rack that fits my oven or a tiny screw for a dicer is something that I do not have time for. She is **a trusted partner and is absolutely a part of our team!** I recommend all restaurant owners and managers choose to partner with Supplies On the Fly based solely off of her professionalism!

Helping the Community

Why does Sysco support Feeding Tampa Bay?

Working with community partners like Feeding Tampa Bay aligns with our Purpose of Connecting the world to share food and care for one another.

We've been a long-time supporter of this great organization. As the global leader in foodservice distribution, Sysco's focus on addressing hunger and food insecurity is perfectly aligned with Feeding Tampa Bay's mission to provide food to nearly 1 million food insecure families in the 10-county area of West Central Florida. Many of our associates volunteer with Feeding Tampa Bay and we also work with them on various events throughout the year.

Sysco knows that food insecurity can affect anyone – our neighbors, coworkers, the elderly and classmates. There are many people that are just one tragedy or natural disaster away from needing assistance. In fact, 1 in 4 children are food insecure in the Tampa Bay area.

Together, We Will **End Hunger in Tampa Bay.**

For 37 years Feeding Tampa Bay has served over 500 million meals to people who are food insecure in our community. In order to continue towards a hunger-free community, Feeding Tampa Bay has launched a bold \$39 million campaign to build the facility. Through this facility, we will have the capacity to meet the entirety of demand for food in our 10-county region. This new facility is dedicated for sustainability in every way and will stand as a vibrant foundation for a hunger-free community.

This facility ensures Feeding Tampa Bay will:

- ✓ Increase its capacity to recover an additional 75 million meals
- ✓ Deliver 2x more fresh produce and perishable goods
- ✓ Reduce the cost per meal by 20-25%
- ✓ Increase volunteer capacity by 70%
- ✓ Increase the annual economic impact due to efficiencies

Point of Delivery System

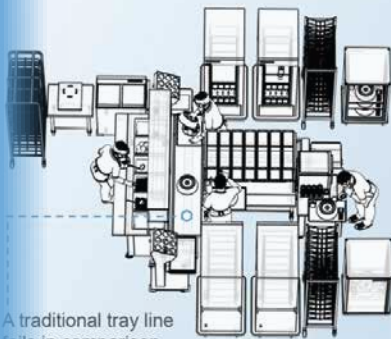

The unique DINEX Point of Delivery (POD) System allows organizations the capability to maximize full-time employee labor, utilize space more efficiently, and assemble multiple trays simultaneously.

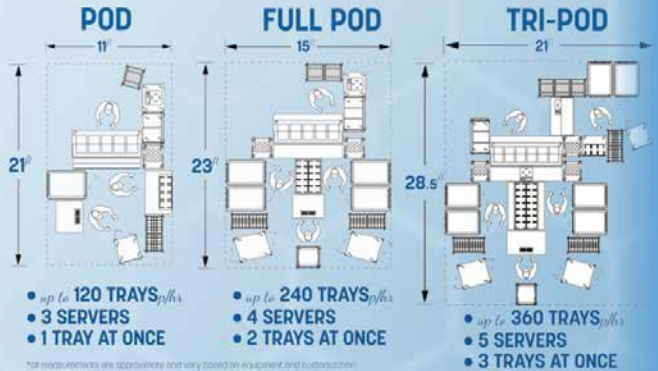

POINT OF DELIVERY (POD) SYSTEM

DINEX

Dinex Consultative Service for Unmatched Productivity, Efficiency, Speed & Quality of Tray Assembly

A traditional tray line fails in comparison

A POD system can be constructed and customized to fit your needs and is ideal for organizations struggling with maintaining meal temperatures or longer than desired meal-time windows. Finding a lean POD process allows for more flexibility when labor shortages occur while still being able to provide great quality, service, and increase patient satisfaction.

DINEX offers key products as part of the POD system to keep hot food hot, cold food cold, and check stations and delivery carts to maintain tray accuracy and quiet delivery. Contact your local CFS Brands representative for more information to determine which POD solution is best for you.
